### EXAMINER'S AMENDMENT

The applicant's response filed 5/6/2004 to the Office action has been entered. Claims 1-20 are pending.

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Matthew E. Hinsch on 5/24/2004.

2. The application has been amended as follows:

In claims 2-5 and 10, line 1, respectively delete "A" and therefore substitute -- The --.

In claims 16-19, line 1, after "The method", respectively insert -- of --.

3. The following is an examiner's statement of reasons for allowance:

Concerning claims 1-20, no prior art has been found teaching or suggesting the kit and the method for carrying out a nucleic acid amplification reaction, wherein the kit comprises a pair of primers, wherein at least one primer of the pair contains a modified nucleotide within the three 3' terminal nucleotide positions, wherein the modified nucleotide is selected from the group consisting of 2'-O-methyl nucleotides, 2'-fluoro-nucleotides, 2'-amino nucleotides and arabinose nucleotides and the method is to amplify nucleic acid by using the primer contained in the kit.

The closest prior art is the reference of Will (US 6,001,611, issued December 14, 1999) in view of Gold et al. (US 2002/01172962). Will et al. disclose modified primers, which are used

Art Unit: 1637

in the amplification of a nucleic acid sequence (See the Abstract) in which the primer is modified at the 3' terminal adenosine with a methyl group. Gold et al. disclose 2'-methoxy ribose versus 2'-hydroxyl at 3' terminal (See paragraph 0049). However, there is no motivation to combine both references that the oligonucleotide of Gold et al., which is modified at 3' terminal, would have been used as a primer for nucleic acid amplification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joyce Tung whose telephone number is 703 (305) 7112. The examiner can normally be reached on Monday - Friday, 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Benzion can be reached on 703 308 1119. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
